Car insurance pays for inflation too.

Inflation's a fact of life.
It's everywhere.
Inflation affects car insurance
too. The claims insurance
companies pay on your behalf
cost more today than ever before.
It costs more for fenders,
grilles, doors, headlights—or any

part that has been damaged.

It costs more to put them on or fix them up.

It costs more to get you on your feet again if you re injured. And if you injure someone else, that ill cost more, too.
On top of all this, car accidents

keep going up and up.

No wonder car insurance rates have increased. But not rates have increased. But not competition among insurance companies always gives you the best in protection and serve—at the lowest possible cost.

With car insurance, you never drive alone.

Dear Dr. Steincroln: I have varicose veins, a rath on my legs, and need to have the veins treated. My doctor wants to have my veins stripped. I am 59 years old.

Isn't there any other way?
I have a 4-year-old son. I do not have insurance to pay for operation and the hospital. Among other things, I have a son in Vietnam, so I am not in the proper state of mind for

surgery. — Mrs. N.
COMMENT: Ask your doetor if he will send you to a specialist to consider the possibility of injecting your varieuse
veins instead of operating on
them. His decision will depend
upon your condition. At least
you will have considered evevy possibility other than operation,

Noisy Reception

Noisy Reception

Saturday's big labor raily in Toronto in
which Ontario Labor Minister Dation Baises
was abouted down was a poor exercise in
democracy. However, with pleas by union
leaders on the stand, who pointed out that
the Government had been invited to send a
spokesman, Mr. Bales got some of his message

across.

Target of the workers' ire was the Rand report — the findings of a federal task force on labor relations. Labor takes issue with the report but Mr. Bales said the provincial government was not going to reject it out of

There are recommendations in it which visual be quite useful to the average working man or genma. The naded that the Government was also using a report by Protessor John Crippo and Protessor It. Coldenberg on the construction industry as guides. All three reports, he said, would be usual in helping the Government to decide on legislative changes in the inture. At the same time Mr. Ealers assured the crowd he does not include the Comment of the Comment

-than he received at this rally. Democracy is poorly served when a government spokesman, invited expressly to a rally, can not make himself heard above the din of the crowd. He has said the Government intends to study the recommendations cited. If nothing is done, or if Labor is bady served by future legislation then is the time to complain, not now.

anen is use time to complain, not now.

Mr. Bales for his part has been critical of late of the news media for what he considers over-emphasis of labor disputes. In the course of a debate on his Department's 350 million estimates, he said there were 2,700 peaceful settlements last year compared with 286 strikes and lockouts.

arrikes and lockouts.

As a result he said the public seems to believe that order can only be restored by getting rid of free collective bargaining. Mr. Bales added, however, that Ontario can expect Bales added, however, that Ontario can expectjone of the biggest collective bargaining years
in its history in 1969-70. Some 3,600 agreements expirs and another 500 first contracts
will be negotiated.

If the emphasis, historio, has been on the
relatively few disputes, it should be remembered that it is the exceptions which prove the

The Budget

At a time of heavy spending both at the individual and government level, and with the cost-of-living hitting new peaks, Finance Minister Benson's anti-inflationary measures

are timely.

As has been pointed out, the five main tax
and tariff changes announced in the budget
will have little immediate effect on the average
Canadian, but by curbing what is described as
"overheaded commercial expansion" on '22
monterpolium and urban centres — by postreducing the government's own pennding, the
budget is simed at reducing inflationary
pressures.

pressures.

Income surtax is being extended for snother year but tariffs are being dropped against a range of competitive imports.

A surptise measure (is the tax lery being imposed on all ravel, part of a policy of bringing charges for government services closer to costs. It maint impact with se fetty the business community who use the airlines requisity.

the business community who use not animor-regularly.

If this budget succeeds in its main objective of keeping liniation from making further inroads, so much the better. It will take time, but the message is clear that Canadians must exercise a greater degree of economic restraint in the days ahead.

Parks and Sports 1

While it is disappointing to note that parks development is being cut back this year because of lack of funds (a sum of 540,000 was dropped recently from the parks board bud-get), the city does not lack for accomplish-ments in this regard.

All we need now is better weather. The rain has been plentiful and it has brought swift growth to gardens and parks. Now, in the words of the song, let the sunshine in.

Some Nerve

Some Nerve
As bank robbertes go, the one at Consecon
recently was something of a classic. To select
such an area, offering no easy means of
excepp, indicated either a great deal of nerve
or gross geographical ignorance, or perhaps
both. And then, to escape, by the only means
possible — in a boat — was the height of
inny.

The two young suspects are still at large, somewhere in the great beyond outside Prince Edward County which earlier looked like a certain trap for anyone attempting such an extended to the season of the season of

Stubborn Folk Fear Change

By STONEY J. RHERIS
Thoughts At Large:
The unwillingness to change
on's mind is usually characterized as "stubbornness" —
but, most stubbornness of 2-2s
sort, is rooted in the fear
that if one opinion is changed, like building blocks, all
the others will subscopenully
tumble down, and a whole
philosophy of the will have to
be painfully rethought out.

The average in making

The average man is unable to distinguish hexacen bold ness and rashness, and therefore he is unable to understand that when the professional caredevil is "taking chances" he is at the same time taking every precaution to minimize risk of accident, unlike the amplements.

Politicians, who are so proud of standing up to their opponents, ought to stand up to their friends more often, for a public man is more likely to be betrayed by these around him than by those against him.

The futility of h u m a n en-deavor can be seen in the fact that at 2 a.m. in a poker game all the losers are still playing against one another, while the winners have pleaded "an ear-ly day" and gone home.

You never hear of a man being "ahead of his age" un-til he's already dead, and thus no further threat to those who are behind theirs.

Odd how often it is the same men who preach the virues of independence, initiative and hard knocks, who leave the largest fortunes to their sons, thus denying them the inesti-mable benefits of deprivation,

man is make out a choose you may maker it yourned, the work of the control of the

Dirty Work!

Spring-cleaning can be quite a chore at the best of times. But, when it goes underground, it's that much more complicated -- and dirtier. At least that's the case here for these Belleville public works employees. They've currently got the task of giving city atorm sewers an annual cleanup from a year's deposit of mud.

A Brighter Future

The prospect of the Union of Ontario Indians being given full responsibility for community development before the current session of the Ontario legislature ends is

auraging.
According to Chief Wilmer Nadjiwon, the According to Chief Wilmer Madjiwon, the government has received favorably the union's proposal to turn the handling of Indian affairs over to a provincial Crown corporation. The union seeks the appointment of community development officers of Indian ancestry to work in each of the province's 30 communities. They would be supported by five communications officers and regional development specialistic.

Friendly Computer

Two University of Waterloo students, Susan Watt and Ann Stiles have a computer to thank for their summer jobs. It digested facts and statistics they gave in interviews and and statistics they gave in interviews and picked them from other students to work as assistant program directors with Hespeler recreation director Stan Moore. Sometimes computers make mistakes, but not this one. It said Mrs. Watt and Miss Stiles were the girls for the jobs — and they accepted!

Consumer Reaction

The most effective way of countering high ces in food or anything else remains sumer reaction; that is, Perusal to knuckle on to the outrageous manner in which ces are manipulated to the continuing advantage of the public.

ussan/ranung or the punds.

Is the public willing to do without steaks, for example, until they come down in price? It seems not. According to local suppliers there has not been the switch from top grade sitchin that had been anticipated. Yet a few years ago, when the price of becom rose sharply, a public boycott of the product very quickly brought is down again.

down again.

The public of course are long-suffering. It is only when they become sufficiently aroused that those who would take advantage of purchasers realise their buff has been called and begin to back-pedal. It is the same in other spheres; for example, had there been no public outery there would have been no consideration given to another OMS hearing on the Belleville plant issue.

One centre setting an example at the moment is Vancouver where last week househow wives numbering more than 100 gathered for front of a wholesale grocery establishment to protest high food prices. The group were planning also to picket other stores.

planning also to picket other stores.

If the public across Canada were less long-suffering and docile when wholesalers and retailers take advantage of them, the cost-of-living would drop. What about it Canadians? So long as we accept economic conditions as they are so long will Canadians continue to pay more for everything.

Charles in Wales

It is a tough grind for anyone going through university, but for those who are hard-working by nature it is both challenging and interesting.

Some, of course, are at university for other purposes. Their "studies" embrace the arts of anarchy and they flaunt their immaturity in full view of the public whose tax dollars make their presence there possible.

We have suggested that the time has come to clamp down on student dissent where it serves only destructive or negative goals, but meanwhile, it might be worthwhile to take a look at the busy schedule of a young student whose future is one of service to his country.

We refer to Prince Charles, heir to the Throne and Prince of Wales, the hereditary title which he will formally assume at historic Caernarvon Castle on July 1. The Prince is currently studying Welsh at the University College of Aberystwyth and Canadian Press writer Carol Kennedy has been observing the effects of the Royal presence on the com

He will nave his work cut out between now and mid-June, a period that will leave him only a couple of weeks before the ordeal of the investiture.

"As well as his language lessons, he will be expected to produce a weekly essay on aspects of Weish history and at the same time

there in the fail.

"On top of this will be the strain of trying to establish himself as a normal student among 2,300 others — half of them Wesh, including perhaps 150 vociferous nationalists,"
It is not an explice for Frince Charles but if anyone can succeed in the role, he can. of the activist types who attend Aberptayth, writer Kennedy makes this interesting observation: "Some of the most stiffent multistudents whose pecudo-nationalism is almored up with republicanism and the usual international student cults of 1969."

Harness racing anyone! We imagine a whole host of new devotees of this sport were recruited overnight after The Montreal Gazette's color picture of the eight young Italian women competing in the world harness racing championship at Blue Bonnets over the weekend. Attired appropriately in blue blouses and white slacks, the smiling Italian eightsome are as comely a group as ever sped around a

Summer-Maybe

The weather can be awful, but that is no reason why Bellevillians should not exercise their imaginations in the interests of a bright-

Recently we suggested Zwick's Island as the mecca for say, a festival of sport, with tennis, swimming and soccer. We could have mentioned track and field events as well with ients from all the schools participating.

If young Canadians can show their physical-prowess on lengthy walkathons, why not diversify their athletic skills in the manner suggested above. But why stop there? The girls, while just as eligible as the boys for most of these events (what about soccer too, girls!), they might show off their own special talents, say in the form of an outdoor fashion show.

Now it always catches us unawares (at least when May and early June are warm and sunny as they ought to be, but unhappily only occasionally this year) that Summer does not in fact arrive officially until June 21, whereupon the days gradually (even peevishly) fall into decline, each day offering fewer hours of daylight than the one before. Until suddenly It is fall . . . now there is a season to remember. the fabled autumn scene.

But we are getting ahead of ourself nmer then is still on the way (as if the elements have not made that absolutely clear elements have not made that absolutely clear already) and there comes to mind the custom of the Swedes in celebrating the coming of summer with fold dancing, sun worship and general jolitication. Yet here at bome we have known a large group of bridge players to spend a mid-summer's afternoon indoors, doing their thing, to the dismay of anyone who has any respect for our short season of (hopefully) clear adds and warmth.

In any event, this is the season to be outdoors at least — and, preferably, active in sporting and creative endeavor. We hope that Zwick's Island may indeed be the scene of much summer activity and fun and, perhaps, if citizens are creative and determined enough, activities, that invoive the community as a whole, and the young in particular.

Disciplinary Problem

Alarmed by lack of discipline among students of public schools amid the tension-filled atmosphere of New York City, education officials have stumbled upon a possible

It is something like the prefect system in Britain whereby senior students of high scademic standing and accomplished at sport help maintain discipline among the student body. Only in this case, since the students are a little immature, not to mention undisci-plined, young adults from outside are being brought in for the job.

Here is what The Christian Science Monitor had to say about this in a recent editorial: "In their struggle against student unrest, New York city public schools are trying."

to reach youth with youth.

"Savey young men in their early 20s are plucked from the streets and sent into troubled high achools to stabilise students by working closely with them. They serve as advisers to student councils, aports teams, school plays, and other activities. They also help keep order in corridors, lunchrooms, rest rooms, and elsewhere in the schools.

"It should soon be apparent if the idea has merit. The two Manhattan high schools picked for the experiment-are among those hardest hit by fires, vandalism, and drug use."

A City's Reputation

If English novelist Samuel Butler (1835-1902) were still around today and visiting Montreal, he might say of that city as he once did, "Oh God Oh Montreal." An extract from The Montreal Gazette elsewhere on this page illustrates the reason why the exciamation atill fits. Drugs and pornography remain very much in the city's underworld picture. Gang land killings are commonplace, while a week or so ago a man who held up a store owner and his wife, and pistol-whipped them, was gunned down by two detectives who happened on the scene as he was fleeing. As the author of The Way of All Flesh put it, Oh God Oh Montreall

A personal Invitation to a very special Party

Leon E. Weinstein, President, Loblaw Groceterias Co. Limited

It hink you'll agree that a 30th Birthday calls for a period initial of party. Today we're kicking-off 'Our 50th', beat like initial of party. Today we're kicking-off 'Our 50th', beat of the we're the work of the work of the work of the we're the work of the

of North America's major food retailers.
Along with our 50th Birthdays, we also happen to be celebrating the first anniversary of Loblaws "New Look" rograms. We we had the gratifying experience of hearing from over 65,000 shoppers through our Consumer questionnaire from which we learned much and made substantial changes in our operation. And, perhaps the thing that gladdened our hearts the most was welcoming thousands of shoppers back to Loblaws during the last twelve months.

twelve months.

I can promise you that Loblaws will continue to introduce many of your suggestions plus new ideas designed to make your shopping trip to our stores even more, rewarding.

Meanwhile, our buyers have made scores of special buys that we've marked as "Birthday Buys" and I hope you'll come shop with us and help us clebrate this bence-in-a-lifetime event by taking full advantage of these enceptional savings.

Hidden Costs

During a recent Commons debate on housing a member made a money-saving proposal that bears examination. His name eccapes us but this is what he said: "Both the minister and Central Mortgage and Rousing Corporation know that every tills has already been searched before they grant a mortgage

been searched before they grant a mortgage or property.

The word on, 'slowe the coporation not simply state that every piece of property mortgaged un de r the national housing legislation automatically has title insurance?

Also on the cost sense with regard to early a sense of the cost sense with regard to the final sense of the cost of the cost of the cost of the cost of the final set is to building materials. According to, IR. S. Oray, parliamentary ascretary to the Minister of Pinance, the impact of this tax is greatly overestimated.

Said Mr. Grey, in the same efective. "The Minister of Pinance, the impact of this materials is in part of the cost of a house. The amount an individual pays for his home includes cost of inacd, legal free and the cost of the cos

But only the materials used in constructing the house bear asiles at on their price.

"The tax," he went on, "is imposed when the materials are sold by the manufacturer and not at the price the builder pays. There-fore, taking all these factors into consideration, it has been estimated that the present federal sales tax on building materials may add between three and four per cent to the actual cost of construction."

between three and four per cent to fire actual cox of construction."

Well, it is good to know that by the time it goes through channels that masty 11 per cent socks it to the poor tax-soaked Canadian for a mere three of four per cent. Any chance, though, of it being removed altogether? That is the sort of tax relief that would make most sense in this perplexing housing situation.

Shorts 'In'

In Toronto a school principal is stealing a march on the younger set, his students, in the realm of what to wear these June days. Principal Milton H. Jewell and Vice-principal Moughas Carcallen showed up at school last week wearing Bermuda shorts and knee socks. Will the principals' lead catch on? We would will the principals' ie86 catch on? We would not care to hazard a guess (after all, shorts to a student could be just another manifestation of the "square" world, but if they do then perhaps the girls will want to wear shorts to school too. The Mayor's Casting Vote

To the Hardy report, which discussed municipal administration, some me of time was based of a deep division within the control of the control raisonian what council is there for, and whatever action we are getting on vital questions, D. Jank MacDradi is seeing that we get. He must be fully sware bits his need is out very far. He has the political and moral courage, and sense of responsions, the state of the sections, in the face of that knowledge. Trenton should thank him.

The Good Life In Ireland time, this puts him in the cen-tre'of criticism for any decision which goes sour. That is not as it should be. Anyone who wants to do it can check council minutes and note that 50 times out of 100 the same three people line up on each side. Monday's meeting was a case in point, when the everlasting question of the post.

Cadets Show Own Aircraft

The air cadets of 704 Squadron at CFB Trenton will be training in an airplane they paid for with funds from a walkathon they staged around the bay. Their single engined 108 Stinson was displayed for the first time in front of the

recreation hangar. Squadron Sgt. Wayne Green a member of the air cadets' precision drill team, is one of those who contributed much time and effort to the project.

So her child could die.

But if the contractor had called us, we would have told him, at once and without charge, how to avoid this tragedy. All it takes is one call to "Repair Service". Our people there know the locations of all our underground

telephone cables—whether they are buried along streets or highways, under private yards or vacant lots.

As you know, we are burying more and more cables; it improves the appearance of our cities, and it also reduces damage by natural causes to our cables—that its, to your communications lifelines.

Expect a lot of good things when you fly West with Air Canada.

Like being on time, in 1968, for instance, Like being on time. In 1968, for instance, 799% of our North American flights arrived right on schedule. Not perfect, of course, but it was the best on-time record of any major airline in North America., We're really proud of All our people, both on the ground and in the air, whose efforts

made this outstanding performance possible.
And even though we realize that perfection

is the Impossible dream, we're going to keep on trying. Because we like being number one Always. All ways. For you. Next time you head scross Canada, come with Air Canada and get there on time. Just call your travel agent for reservations.

HOW TO PLAY THE GAME *

Until this law is changed, as surely it must be in fairness to all, we must kry to obey the law as best we can understand it, so in the meantime, let's just try to cooperate and play the game. We may have to ask you to do some silly things are all the marking purchases at our store in order that you should not have to pay a tax in cases where the situation is both under and ridiculous.

WHAT ARE WE DOING TO HELP YOU?

The Dizie Lee Co. on June 2nd has made a written request to the Canadian Restaurant Association to either clarify the situation or bring about a test case so that the law can be properly interpreted and revised as needed. Our local member, Dr. Polter, has been advised of this request and he has notified Dizie Lee Co. that he will personally lake the matter up with the Minister of Revenuly lake the matter up with the Minister of Revenul.

IN THE MEANTIME

Piease bear with us until this problem is resolved. We do appreciate your patronage and deeply regret that we must at times be party to a tax collection that we mutually deplore as unfair.

Assisting in the search is Gordon Cooper of Belleville, who was fishing from his boat when the girls disappeared, and who made an unsuccess-ful rescue attempt.

Nr. Cooper reported seeing the girls swim-ming in mid-stream—and—apparently "playing around in the water."

"I passed within about 20 feet of them," said. "When I got down stream a bit I looked h and saw one head had disappeared. I thought are naw one nead had disappeared. Indian Perseverance

There is a peaceful — at least relatively o — revolution taking place in Canada. It is appening mainly in Ontario and it has to do tith Indian rights. Indians in the province with Indian rights. Indians in the province more and more are making their needs known. They still have a long way to go, socially and economically, to raise their standard of living, but as a first step there is this campaign among Canada's first citizens to gain's greater

ssure of responsibility for their own affairs. Chief Earl Hill of the Tyendinaga Reserve in an article in this newspaper the other day spoke of the delays in provincial government administration of Indian projects, and of red ammistration of Indian projects, and of red tape that is stifling progress on the reserve. A He spoke of treaties made with his people and then "pushed aside and replaced by the Indian Act which we didn't make."

In short, Chief Hill wants a much better deal for his own people, the Mohawks, and the Indian population at large. And the only way this can be achieved in his opinion is to have Indians "at the decision level of administra-

Now the history of this quiet revolution in Indian affairs is an interesting one. It might be said to have had its beginnings six years ago when Kahn-Tineta Born, a fashion model with a consuming interest in the future of her people, came under public motible. If all this with a consuming interest in the future of her people, came under public motible. If all this people is a consuming interest in the future of her people, came under public motible. If all this condition, her obvious intelligence and courage, from dispelled this notion. In 1863 Miss Born, who is from the Caughawayage Reserve near Montreal, write a leiter to free Montreal Onartte in which the drew attention Caught in which the drew attention of the condition of the said of the business community to promote the interest and all of the business community to promote the interest and all of the business community to promote the interest and all of the business community. the interest and aid of the business community to promote the interests of young Indians. They did not seek charity, she said, but railier an opportunity to help themselvers, made their an opportunity to help themselvers, made their bass become much more radical and milliant in her outlook and is more inclined to burn white Canadians and governments at the stake, with her flery speeches, than to sak for their cooperation, find existance. She is still rightly and the same of the second control of the same control of the s very much in the forefront of the indum-rights movement, but the interesting thing is that while hers was virtually a lone voice six years ago, and until recently, now the cause of the Indian is very much in the forefront and many other tongues, forked and other-wise, are saying their piece.

was, are saying their piece.

There is the emhatited John Yaremko, Oniario's Minister of Social and Pamily Services. During a recent tour of the Lackened area Mr. Yaremko was told buntly by Monica Turner, director of the Thunder Bay Friendahip Centre at Gernidton: "I believe you are wasting our time, we will walk no longer. You are yaking on and on ... Perhaps we could communicate with — because we are not getting through to you. ..."

And then there is Joness Jestimen.

getting through to you..."

And then there is James Jessiman,
Conservative member for Fort William, who
accompanied Mr. Yarembo on his tour and
told the Legislature on his return it was time
the province took more action-for the Indians.
In an interview lake the spoke of poor conditions at isolated Indian communities,

Ortably, he government must lake much of the blame for the situation. That there is controlled over the division of responsibility for Indian affairs between the provincial and federal galministrations makers it all the worse. So long as there is this administrative models, and so long as Indians are kept out of the counsels of government, one will consain a first clittens share in which the country of the country

God the Preserver of Man" is the subject of this week's Bil reson-Sermon which will be heard Sunday in all Christi

science enurches.

"The Lord shall deliver me from every evil work, and will preserve me unto his heavenly kingdom; to whom he glory for ever and ever." This verse from II Timothy is the Golden Text. A correlative passage, from Science and Health with Key to the Scriptures by Mary Baker Eddy, explains: "The divine Mind that made man maintains His own image and likeness".

Dog Lovers Disagree With Ann's Advice

DEAR WY.: It's too late. The deluge ders are against me 100 to 1. Read on:

DEAR ANN: Your solvice that an indoor dog be given a farmer is typical of the dumb things city people come with the farmer. It already oversaw with dog owners and the farmer. It already oversaw with dog owners and the farmer. It allegates that a mility rate of the farmer is the bossistence of the farmer is the farmer in th

DEAR ANN LANDERS: I am 10 years old. I have a flog. When he wets on my mother's carpet I take some paper towers and blot it up. I use my foot. Then I pour white vinegar on the spot. It fires everything. — DOG

DEAR ANN: Our family refuses to believe that you sonsider wall-lowall carpeting more important than a child's love for his dog. We have antique oriental rugs in our home and the spots made by our nervous little pooffs and our lary golden retriever has added character to these priceless floor coverings. Same on you, Ann. PITTS

DEAR ANN: Your suggestion that a dog who has been a house pet for six years be given to a farmer was not a humane solution. To, sak an aged dog to adjust to new people and new environment, it unreasonable. It would be much better for the dog if they put him to sleep. — M. Y. OF WILLIAMSHORY.

DEAR ANN LANDERS: Are you on vacation? Please come back. I can't believe you gave that stopid answer. So So the dop did a few things on the ray, to what't the solor that it is perfectly O.L. to per, and of anything that presents you don't like selected you drop out. If you don't like sarrings you bust it up. If you don't like a job you quit, And now Ann Landers comes along and say if you can't househerst your most give him to a farmer. Think it over, Touts, — Withing Him.

DEAR WINNIE: I have thought it over and the next I get a letter asking for advice about a dog I'm going onsult people who have dogs. Rugs I know something at but I'm no authority on dogs and my answer

Mother: "Jim and the chil-dren love to go on picnics, but I'm the one who ends up doing most of the work. I've spent most of the morning frying chicken, making potato salad and packing the picnic hasher." Part-of the fm of a picnic may be cooking the meal out-re instead of preparing things at home, and it will be easy Mother if she encourages the whole family to help.

We make gasoline. But mileage is our business.

Our idea is quite simple: me ment you to go as far ar pamble on every gallon of gasoine. That's why we try to do a lot more than just fill your tank,

How we help you go farther

We can check your spark plugs. If they're worn, you could be wasting one gallon in every tankful.

We can check your air filter. If it's dirty, that wasted gasoline—and money.

These are a few of our gas-saving secrets. We have many more. We want everything right with your car when we fall your tank—so Super Shell can really show off.

5 ingredients for good mileage

Super Shell has built up quite a reputation for go mileage. There's one good reason: the formulation

- TCP works to keep spark plugs from misfiring.
- Butane helps you start quickly. And the faster you start, the less gasoline you use before you get going.
- A detergent fights deposits that can build up inside the carburettor. These deposits reduce mileage. Mixed Pentaner help your engine warm up quickly to prevent missiring, coughing and wasted fuel—in any weather.

But as we said, gasoline is only part of the story.

Mileage is our business. We'd like to prove it to you. Visit a Shelk station—if you'd like to go farther.

The public as ever is in the middle, but it is the public that decides these matters in the set. If the public that decides these matters in the set, if we were not so inclined so, which could complaint, not only deliberations, which coincide doors but rising costs of food and boating for example, we could with greater justification call ourselves a demonsacy, one in which the public plays its full part.

which the public parys its full part.

It seems that only at piction time do supporters make their presence felt, only to fade into the background once the rote is over. Yet some of us — the more radical and left-wing at least — can get worked up about causes far from home like Victorian and Blafra, yet not lift a finger on issues right here at home.

According to Premier Bertrand, the federal government on this occasion showed "better understanding" and was "much more flexible." Good, but Canadians could have judged this for themselves had the Press been admitted to the discussions.

Trenton's Misfortune

Fire Protection It is about time Belleville and the town-ships settled this business about fire protection. Actually we thought it had been settled, with Sidney, Thurlow and Ameliasburg townships Signey, Trurow and Americasons townships deciding (rather than agree to exorbitant fees from Belleville) to establish their own fire protection: But now Believille is claiming \$15,000 from Thurlow and \$9,025 from Ameliasburg for fire protection from January to the end of May. It is true Belleville has been providing protection over the years for a fraction of these costs, but the sudden huge rease took the townships by surprise. And it is not surprising. It looks as if Belleville and the townships are going to have to get together again to iron this matter out.

Peewees Work Hard for Ties

Maybe we should call it the reducing machine.

Even lightweight cars seem to have heavyweight prices these days.

But don't despair.

Because Chevelle,"the concentrated Chevrolet," has come up with a wel-come way of reducing them—and still giving you alot more car in the bargain.

It works like so: You put the items you want on the Chevelle you want and chances are we can give it to you

Based on manufacturer's suggested maximum retail prices, including federal sales and excise tax and suggested dealer delinery and handling charges.

Add Powerglide, head restraints, power disc brakes, wheel covers and whitewalls to our Malibu Sport Coupe, for example, and we'll reduce the price by a whopping \$96.00*.

What we haven't mentioned, how-ever, is that while you can get this '69 Malibu Sport Coupe for \$96.00' off the price of last year's model, simi-larly equipped, it isn't the same car

as last year's model.

It's one heck of a lot more car.

It has windows-up Astro Ventilation. It has a new theft-thwarting steering column, shift lever, and ignition lock. It has an even smooth and quieter 200-hp standard V8. And it has a list of optional items you can't get from many cars at any price.
All of which adds up to a real put-

wn for overweight prices.

Deficits Decline

Five provinces are budgeting for surpluses this year, up one from 1988. The provinces, putting the brakes on increased spending, have begun to make a dent in deficits. Ontario plans to turn a \$\$370,000.00 deficit, in 1988-80 to 3 \$\$1,000,000 surplus by the spring ol_3970, thanks mainly to new corporation, income and esize taxes. Alberta, New Brunswick and Newfoundland are budgeting for smaller deficits than in 1984. Quebec with almost double its deficit this year to \$\$218,833,600 from \$\$11,074,250.

Two Great Canadians

Canada's growing cosmopolitanism is a big factor in its development. People from many countries of Europe, including the recent influx of refugees from Crechostovakia, make up this country's population. Yet our Anglesaxon origins are still very much a dominant feature of Canadian society — a fact that was well demoustrated in two recent ceremonies.

FARMERS OF ONTARIO!

You are being asked at hundreds of meetings and by tons of HIGH PRESSURE literature to vote either for a General Farm Organization or Farm Union . . . may we suggest you do neither . . . but, vote for your FREEDOM ONLY by voting NO to a compulsary farm organization i.e.

VOTE NO FOR G.F.O.

Why is there need for compulsary organization ... why not voluntary ... why not one group ... one group ... Ontario farmers never had so much attention since having two group i.e. Fed-/ eration and Union.

Why a COMPULSARY LEVY . . . Where will the agricultural bureaucracy suggested by Governments Farm Income Report lead us? Who knows what form G.F.O. will take?

Will there by any end or control over costs, inspectors, quotas? We will attempt to make clear to you the REAL FARMER, the problems as we see them by daily ads 'til wete day.

Rose Queen Event

Belleville's Rose Queen Pageant organiz-ers are seeking more entrants. It seems some of our local lasses are shy. At least, that is the word from Jerry Barratt, chairman of the Rose Queen segment of the Belleville Horticultural Society's forthcoming Rose Festival.

Perhaps it is because we do not have that many beauty contests in this area. Yet here when an opportunity is presented to give this pleasant type of initiative a hoost, there seems to be a reluctance to participate.

The tried to talk a few girls into it my-self, but they just shrug their shoulders and I can't get any answers out of them," said Mr. Barratt.

Well, well, this does describe rather accurately the general lack of enthusiasm of many of our young people. It could be genuine abysess, fear of the unknown, call it what you will; but there is a need-tool at home and in the school to boost the eges of the young, concurage them in all their activities and give encourage them in all their activities and give encourage them in all their activities and give them confidence. That way they would be more inclined to participate in events such as this Rose Queen Pageant, Entries are being accep-ted up to and including Monday, June 23 so how about it girls!

How much money can you save on this Pontiac right now?

Your Pontiac dealer is giving the kind of deals that come along only once in a summertime.

That means big trade-ins, and the kind of price difference that lets you

afford some of the most-wanted options. Like power brakes, power steering, maybe air conditioning. Or you can simply pocket the difference.

Your Pontiac dealer is stocked for

immediate delivery on many models. So see him right now and see how much you can save on a new Pontiac, Firebird, GTO, Beaumont or Acadian. Break away!

Cook-outs - quite informal ones - for just another couple who drop by for the afternoon or evening or a whole crowd, require very little preparation when it's a gas-fueled grill that's all set up on the patio or in the backyard. Just bring on the steaks and you're ready to go for a gay party.

Low Profile Is Safe

The low-flat contour of the tent-trailer is just marvelous for spreading out maps when one stops briefly to check a meandering route to the campette. Yet this convenience is but minor. A major benefit is the degree of safety added because the low profile makes it possible for the driver to see clearly to the rear while towing.

Flying One of the Area's Fastest Growing Sports By TOM DONOGHUE

Of all outdoor activities the bobby of flying has proven to be one of the fastest growing. Belleville's flying club, began in 1990 by former mayor Jack Ellis, Charles Wilson, Cram Caverly, has shown a steady rise in membership since its inception.

The original membership ineluded only eight people and last year there were 55 interested people. This year the ru ber has doubled to a total of 111 Reason for the increase has

been attributed to growing in-terest in gliding. James E. Mar-ker, a member of the club commented "gliding has been a great stimulant to interest in the club." The main attraction to gliding

seems to be that there is no age limit on who may operate the craft and summer is a big time for gliders for three reasons: winds, weather, and the scen-ery that can be enjoyed when earth is dressed in her coat of

As soon as the road is passable members of the Quinte Trap and Gun Club are off to the range to start another year of shooting.

After 13 years in existence the club boasts 85 members all of whom are men and younger

The club's secretary Douglas Johnson says the club participates in a number of competitions which usually include clubs from Cobourg, Madoc, Picton and Peterborough.

Four members from the Belleville organization will be going to the Canadian National Trap Shooting championships. The sport appears to be growing in popularity as shown by the increase in membership. This year alone there have been 12 new members so far this year and by the end of the year there should be approximately 15 to 20.

The season usually rurs from

late April or early May until the road leading into the range, which is four miles northwest of Belleville, is blocked with snow. There are no women in the Belleville club but the men are always trying to get the women to take up the sport. There are a number of women in the other chube which are in the same

PICTON — County council last night passed a bylaw equalizing the assessment of the local municipalities in Prince Edward County. Assessment Commissioner Sidney G. Manley presented his department's aneual report to council at this time.

Total assessment of the county as centained in the recounty as centained in the recounty as centained in the re-

port is \$55,472.374. This figure can be broken down into three divisions with land assessed at \$12.741.989, buildings at \$17.916.900 and business at \$4.813.485.

County Equalizes Assessment

It is my sincere hope that the new administration will see it in 1970 to concentrate on completing the county be-fore beginning a re-asses-ment program in any other areas of the new assessment pursidiction."

Peerage in Decline

The Marquess of Bath poses in front of his home with his pet lion cub Marquess. Andrew Sinclair, author of a recent survey of European nobility called The Last of the Best, concludes

that the British peerage is in a period of rapid decline. "The reason does not lie entirely in social change but partially in the aristocrats' own failur to live up to their ideal of the rule of the best.

Anatomy of the Female High Jump --- Kinsmen Track and Field Club Version

Rome-grown and self-developed styles were the order of the night Tuesday — especially in the high jump — at the Belleville Kinamen Track and Fried Club's practice session at Moira Secondary School. Thritten-year-old Marie Brain (far left and left centre) exhibits armsup form as she licks off and rises up

en route to clearing the bar at 4°3". Regyna Armonas (centre) twists sideways—appearing to raise her arm as if asking a question in class—and begins to lean back and raise her drawing to prevent banging into the bar; while Susan Crawford (right centre and far right) throws her hands up as if ahe were more than the centre and far right) throws her hands up as if ahe were more than the contract of the contract of

arrest and starts to twist before turning completely backwards— whereupon ahe holds her head up to see if she's going to make it is over the bar. These young Belleville misses were practising last night in preparation for the Almonte Dominion Day Track and Field meet this coming Tuesday.

Council Recess Brief

The session was brief, but confirmed opinions of counciliors that the once-long summer recess is merely a formality in the complex world of government administration.

Among items of business was approval of a land conveyance to Galway Realty, involving a

land sale in the Sidney Street area.

Under a 1966 agreement, city officials explained, the sale could not take place until the conveyance was approved by council.

Canada Council Chief

A Vienna-born lumber millionaire with the unlikely name of John G. Prentice is the new chairman of the Canada Council. Since the Council has been under severe criticism of late for the abandon with which it dispenses its monetary favors, for the benefit of all sorts of arts and crafts, it is encouraging to note Mr. Prentice plans to tighten the reins in this

regard.

He put it this way: "There may be, logically, perhaps some changes of poileds but, I think the Chanda Council has had a very good reception from the public. Inevitably there have been areas of criticism address: its Three board and staff will address: its thinking to these areas of criticism. THIS MONTH WE HAD PLANNED TO CELEBRATE OUR 15th ANNIVERSARY. HOWEVER, WE WERE INFORMED EARLY IN THE MONTH THAT OUR BUILDING IS TO BE TORN DOWN TO MAKE ROOM FOR A NEW OFFICE BUILDING. WE HAVE FOUND A NEW LOCATION. BUT FIRST, WE MUST DISPOSE OF MOST OF OUR MERCHANDISE TO FACILITATE MOVING AND STOCK-TAKING, WE MUST BE REALISTIC ... THE SOONER WE CLEAR THE STOCK, THE SOONER WE CAN MOVE.

Wards Not Desirable

One of the subjects broached by East and t Hill ratepayers when they met last week orm an association was a suggestion a rm to a ward system be considered for

Belleville.

Turther discussion along this line would be ill-softend and pointless. Wards were absolubed to deminate pethy sectionalism. With the primary function of any radequeries association being to act as a pressure group on council it puts an under strain on an adermant it is in forced to listen to both his conscience and a ward radequerie association. However, what more to the point, is the fact to revert to a ward system the city would have to request Ontario Mantingal lossed segrential and get the province to amend the

approval and get the province to amend the city's private bin.

With regional povernment just around the corner and a two-lier municipal structure locificable, Ti is not likely the province would be estimated about a ward sprivate. And Judging by comment of OMPA chairman i. A. Remorly Weehnesky during discussions of ward boundaries in Tworsto, it is possible to the contract of the contract of the contract of the city's ward to be included to the contract the bins.

The contract of the city's ward to be a contract to be included to the city's ward of the city ward of the city's ward of the city's

What's Next?

Rejection of the General Farm Organiza-tion by farmers throughout the province is a clear indication the rural dwellers do not want the government involved in running their affairs.

But, unfortunately, it doesn't resolve the problems that have beset farmers for the past many years. In addition it no doubt, hardens the battle lines between the rival Contario Farmers' Union and the Federation of

Farmers' Union and the February Tonion and the February Tonion and the February Tonion and Sprinting.

Ballot results show the chief stumbling Ballot results show the government-backed General Parm Organization that marketing boards should have a vote on a provincial council.

arovincial council.

As marketing boards, themselves, are reatures of the provincial government, the aliot result suggests the boards are not exactly the favorite sons of rural Ontario.

Big question, of course, is where do the farmers go from here. Frovincial Agricultural Minister Stewart has had his fingers burned on the issue. It is not likely he will have his department bounce back for a second try too quickly.

quickly.

It means the farmers, themselves, will have to take the next step to solidarity, one they have stumbled over in the past.

Car insurance covers people too.

Car insurance means more than payments for bent fenders and broken tail lights. It means repairs to people, too.

For less than 4 cents a day your car insurance can include payment of medical costs, including dental, plastic surgery, professional nursing, and other

benefits not normally covered by Hospital and Medical Payment Plans. Broader protection now provides you with weekly payments if you are off work and insurance benefits in the event of permanent disa-bility, dismemberment or death. These benefits are paid for

injuries you and your family suffer in your own or someone clee's car or as a pedestrian in a car accident. All this for less than 4 cents a day—whether you are to blame for the accident or not. Be sure to as your insurance man to add this valuable coverage to your policies

With car insurance, you never drive alone.

TORONTO (CP) — Juve-nile Court Judge William Little convicted a 15-year-old girl of illegal possession of tobacco, which he claims is a more deadly narcotic han marijuana.

The girl pleaded guilty Wednesday to a charge laid under the Federal Tobacco Restraints Act, which prohibits persons under 18 from possessing tobacco.

Judge Little gave the girl a suspended sentence.

Roslin Man Killed

The Quinte district's northern townships were lashed by high winds and rain last night as Ontario's smouldering heatwave triggered a string of violent storms around the province.

Author of "The Dector
Dear Dr. Steinscrohn: What a difference! When an uncle was taken up to Lake Strainer in about 1830 for treatment of about 1830 for treatment of about 1830 for treatment of his tuberculosis, the family said goodbye, knowing he'd be up there bying in bed for up there thing in bed for least a year or two. Even then least a year or two. Even then we had little hope he'd pull through. As it happened, be did.

santiarium. They gave him medicines and within about 10 weeks was considered well enough to go for a vacation to get ready to return to work. What has made the difference between present-day, treatment and the old days in upper New York state? — Mr. L.

By Peter J. Steinerohn, M.D., F.A.C.P. Author of "The Doctor Looks At Life"

Comment: Before what you have said gets out of focus, I want to emphasize that tuber-culosis still remains a threat. Early diagnosis is still important. The disease is still widespread. And people still die from it. I'm saying all this so deper

tubercle bacilli them-t. They had a wonderful fighting a defouceless

tante inguista overocerios in Tropograd a wonderful time lighting a defenseless esemp. Now things are different, la-siesd of using bed rest, hung-collapse therapy, rib-removal operations to compress the diseased hung we use a com-bination of PAS (Para amiso satileytic selfo), insuitaid and artepisorayois. It is this combi-ration of the parameter and the parameter TB bacilli and overcomes the infection in a matter of months rather than pears.

For Mrs. N.: Cholesterol is a chemical component of oils

and fatis. It is manufactured in the liver as well as taken in as part of daily diet. Excressive amounts a re deposited in blood vessels and may be a factor in causing atherocalerosis (disrease of the arteries). It is an important part of living cells. It is not a poison, as so many people believe.

Dear Dr. Steincrobn: I just want to add uny little piece and maybe it will belp the 14-year-old man to go ahased with the hermic operation. My unciet, who is 70 mov, was operated on two years ago for a double hermic. He was in poor beatth at the time but he came through very nicely and naid through very nicely and naid be witshed he had had it does sooner. He wisted till be had to go, which was what caused the complications.

A King Is Born

Fears expressed over the past year that ous trouble would develop Tuesday at the evestiture of Prince Charles as the Prince of es seem to have disappeared.

Instead, the investiture in the centuriesold Royalist town of Caernarvon has taken on the aspect of a national holiday to go along with the scheduled pomp and circumstance.

At 20, Prince Charles has suddenly shot the stock of the Royal Family up a consider-able number of notches. Not one to stick to the rigid formula his mother has adopted, he has made thousands of new friends for the archy by his quiet and sensible nature, his willingness to be interviewed and by such odest comments as "I may be slightly late in developing, I'm not sure."

In any case, tomorrow's investiture will give the British a chance to relax and forget some of their problems. An estimated 200,000 visitors will jam the small town which has been undergoing a facelifting for months in readiness for the big day. Millions more will see the investiture on television. Prince Charles has caught their imagination. Now he must rward to the much more difficult role of learning how to be king.

Young at Heart

Only too frequently are the younger mbers of society criticized for their actions. Certainly the faults are there but only to be over-emphasized on many occasions.

over-emphasized on many occasions.

It is a pleasure then, to meet the group of
110 young people from all parts of North
America who will band together this summer
under the guidance of Project Christopher.

After a week of guidance at Waupoos Island, near Picton, they will spread through-out Canada and the United States dedicating their time this summer to aiding the unfor-tunate and helping those who require outside

The youngsters get no pay for this. In fact, they must underwrite their own expenses to the extent of \$220 each. In return, they fully expect that the opportunity they are given to assist humanity will be an adequate

To see these young people in action is refreshing and encouraging. Perhaps II we heard more about what others like them are doing the generation gap would not be so

A Rose Is A Rose

Rose growers in the area might have had ome qualms about the quality of the blooms his year, but the casual observer at Saturday's lose Festival certainly could not complain.

Lack of sunshine in the growing season was suggested as shortening the stems. As, merely a sniffer of flowers rather than a grower, could we say 'a rose is a rose' . . . and they were delightful.

Festival organizers are to be praised for this annual event, made even more attractive this year with the choice of Miss Gwendolyn Holt as the first rose queen.

Children at Play

Missing on the streets of Belleville today are the busy feet of nearly 10,000 young people going to or coming from school.

It presages a time of fun and games for the younger ones with perhaps a relaxation in the safety rules to which they adhere during the school term.

Motorists are asked to take this sudden reedom into account and drive with extra care over the next two months.

Chamber Open Saturday

The Belleville Chamber of Commerce's decision to keep its office open on Saturdays this summer is a wise 'one. With tourist business on the upswing through the Quinte area it will no doubt, be a service well appreciated by visitors to this area.

Staffing of the office by a Believille girl now at college adds the additional bonus of providing work for a student.
